

Shivam Rawat

Software Engineer — Frontend Engineer

shivamrawat06994@gmail.com — +91-639 624 7987 — LinkedIn — GitHub — Portfolio

Summary

Software Engineer with a strong focus on React and Next.js, experienced in building modern web applications across frontend and backend systems. Skilled in frontend architecture, performance optimization, complex application workflows, authentication, API integration, and end-to-end feature development across enterprise and technically complex product environments.

Experience

ProsperaSoft – Pune, India

Feb 2023 – Present

Software Engineer

- Lead development of Continuum, an enterprise data governance platform, owning features end-to-end across frontend and backend while translating complex requirements into maintainable product experiences.
- Led feature development across a small engineering team by coordinating implementation, helping unblock technical issues, and driving delivery across complex governance workflows.
- Improved application responsiveness by optimizing frontend data flows, reducing unnecessary API activity through debouncing and efficient request handling, and establishing reusable frontend patterns.
- Delivered enterprise workflows covering governance insights, audits, retention, configuration, permissions, and authentication/SSO, including Okta integration and supporting API/backend requirements.

Masala Games – Ahmedabad, Gujarat, India

Feb 2022 – Feb 2023

Frontend Developer

- Engineered React and TypeScript experiences for *alive.house*, a Web3 music and metaverse platform combining a web application with an interactive Unity-powered 3D environment.
- Integrated Unity with React using React Unity WebGL, creating a seamless experience between traditional web interfaces and immersive 3D environments while addressing frontend performance challenges.
- Implemented Web3, blockchain, and NFT functionality, including OpenSea integration, while working with technologies such as Unity and Solidity early in my career.

Technical Skills

Languages: JavaScript, TypeScript, Python, HTML5, CSS3

Frontend: React, Next.js, Redux, Tailwind CSS, Material UI, React Native

Backend: Node.js, Express.js, MongoDB, REST APIs, Webhooks

Engineering: Frontend System Design, Backend System Design, Data Structures & Algorithms, Performance Optimization

Testing: Jest, React Testing Library

Infrastructure & Tools: Docker, AWS, Vercel, Git, GitHub, CI/CD, Jira, Agile/Scrum

Specialized: SSO, Okta, React Unity WebGL, Unity, Web3, Blockchain, Solidity, OpenSea, DSA

Education

Amity University – Noida, India

2024 – Present

Bachelor of Computer Applications (BCA)
